Postdoc Position in Theoretical Particle Physics State University of New York at Buffalo

The High Energy Theory Group at the State University of New York at Buffalo (UB) invites applications for a **postdoctoral position in Theoretical Particle Physics starting in September 2008**. The activities of the group include QCD and electroweak interactions, in particular higher order corrections and tests of the Standard Model, and new physics at the electroweak scale (supersymmetry, extra dimensions, etc.). Current faculty members of the group are Ulrich Baur, Richard Gonsalves, and Doreen Wackerroth. Close collaboration exists with the High Energy Experimental (DØ and CMS) and Cosmology groups at UB, and the Particle Theory Group of the University of Rochester. More information can be found at www.physics.buffalo.edu/hepcos.

Applications, including a list of publications, CV, and three letters of recommendation should be sent to:

*Professor Doreen Wackerroth
Department of Physics
239 Fronczak Hall
State University of New York at Buffalo
Buffalo, NY 14260, USA*

Candidates are encouraged to submit applications electronically by email to dow@ubpheno.physics.buffalo.edu (pdf format preferred). We especially welcome applications from qualified members of protected groups. The University at Buffalo is an Equal Opportunity Employer/Recruiter. Deadline for applications is January 15, 2008.
